TRANSPORT – EXTERIOR

Alkalisk light

Highly concentrated alkaline shampoo for cars, trucks, buses, trains and heavy vehicles. Can be used in automatic washing machines with high pressure or can be used as manual cleaning. For cleaning of vehicles all year round.

Alkalisk Wash Blue

Used to clean most surfaces such as all types of facades, vehicles, boats, RVs, trucks, machinery, floors, walls and ceilings. The product dissolves general dirt, grime, algae, oil, grease, exhaust fumes, insects etc.

Boggie Cleaner

A powerful high alkaline cleaning detergent used for heavy duty bogie cleaning.

Brush Cleaner Winter

Designed for use in automated brush washing facilities.

Degreaser Wet

A very efficient petroleum-based cold degreaser for all types of vehicles. It works equally well on both wet and dry surfaces. It dissolves oil, tar, asphalt, road salt and other dirt.

Eco Shine'n Dry

Rinsing and drying agents for car, bus, truck and train washing plants. Used in automatic washes and GDS washes. Provides a dry and water-repellent surface.

Eco Wash Green

Used to wash surfaces such as trains, metros, trams, busses, personal vehicles, boats, trucks and transportcontainers

Eco Wash Neutral

A mild universal general cleaner, designed for exterior and interior washing of car, bus, caravan, truck, train and canopy. Is also perfect for general inside cleaning of Train, Metro, Tram, and T-bane (on all water-resistant surfaces).

Eco Wash Premium

Used to clean trains, metro, trucks, forklifts, hoods, containers, tractors, agricultural equipment, diggers and road-building equipment etc. It is also ideal for cleaning after fire damage as it removes soot excellently.

Eco Wash Yellow

Used to clean trains, metro, trucks, forklifts, hoods, transportcontainers, cars and buses.

Super Wash Green

Used to clean trains, metro trains, trucks, forklifts, hoods, containers, tractors, agricultural equipment, excavators and road-building equipment etc. Is also ideal for cleaning after fire damage. For cleaning and degreasing machinery, conveyor belts, metals and in the agricultural sector.

Super Wash Green Glans

Used to clean trains, metro trains, trucks, forklifts, hoods, containers, tractors, agricultural equipment, excavators, road-building equipment etc. and achieve a clean surface with extra shine.

Train Wash Acid

Cleaning agent with low pH for train carriages, locomotives, trams and metro trains. Train Wash Acid is a cleaning agent which effectively loosens brake dust and dirt (iron oxide). Can also be used on transport containers. Fast-acting.

Train Wash Oxal

Cleaning agent with low pH for train carriages, locomotives, trams and metro trains, trucks and other vehicles. Train Wash Oxal is a water-based cleaning agent which effectively loosens brake dust and dirt (iron oxide). Can also be used on transport containers, components, rust, etc. This product is based on oxalic acid.

Train Wash Phosphor

Cleaning agent with low pH for train carriages, locomotives, trams and metro trains. Train Wash Phosphor is a water-based cleaning agent which effectively loosens brake dust and dirt (iron oxide). Can also be used on transport containers. This product is based on phosphoric acid.

Experts in cleaning agents for the professional market

We have one of the market's widest product ranges – and with many years of experience in both development, production and sales of effective cleaning products – which we sell to the European market. The head office is in Sweden, with sales offices in Denmark and Norway as well as an extensive network of dealers.

Philosophy

Blue & Green aims to deliver products of the highest quality at the right price - with the least possible environmental impact. We have a great focus on the environmental impact when we develop and produce our product range. It is important to us that our products are efficient in our customers application with the least environmental impact.

That is why we have several different environmental labels on a large part of our products and that we are ISO certified. At the same time we are connected to the Swedish circular packaging system, as we think it is crucial to recycle our packaging so that our products impact to the environment has as little impact as possible.
