TRANSPORT – PROTECTION

Exterior Coating

A high-tech 1-component coating for lacquered metal surfaces. The product has good chemical resistance and good scratch and wear resistance. The product has high weather resistance together with “easy to clean” features, which reduce maintenance costs. Use Exterior Coating to restore the finish of worn and dull surfaces. Exterior Coating meets requirements for permanent Graffiti protection, making it the natural choice for protecting property for transport and infrastructure. Ink and spray are easily removed several times without affecting the surface.

Floor & Wall Coating Low Gloss Anti-Slip

High-tech coating for linoleum, plastic and rubber floors. The product has excellent chemical resistance properties with high scratch and wear resistance, but also with permanent elasticity. Repeated treatment is possible at any time without stripping. With new technology, ink and ink as well as graffiti can be easily removed repeatedly, without affecting the surface properties. The product is available with different gloss: high, medium and low gloss.

Floor & Wall Coating Medium Gloss

High-tech coating for linoleum, plastic and rubber floors. The product has excellent chemical resistance properties with high scratch and wear resistance, but also with permanent elasticity. Repeated treatment is possible at any time without stripping. With new technology, ink and graffiti can be easily removed repeatedly, without affecting the surface properties. The product is available with different gloss: high, medium and low gloss.

Floor & Wall Coating High Gloss

High-tech coating for linoleum, plastic and rubber floors. The product has excellent chemical resistance properties with high scratch and wear resistance, but also with permanent elasticity. Repeated treatment is possible at any time without stripping. With new technology, ink and graffiti can be easily removed repeatedly, without affecting the surface properties. The product is available with different gloss: high, medium and low gloss.

Glass Coating

A treatment for front windows on trains and buses etc. The product has excellent chemical resistance properties and is easy to apply. High weather resistance along with E2C (easy to clean) properties reduces cleaning costs and washer fluid.

Goaway

Goaway is a fast polish remover that effectively and safely dissolves tough deposits with many layers of polish, all types. For effective removal of polish for floor renovation. No rinsing needed. Highly concentrated, low dosage. Low pH. No discolouration of floors. Can be used on linoleum floors.

Interior Coating

Interior Coating is a high-tech transparent 1-component graffiti protection for plastic, colored fiberglass and laminate surfaces. The product has excellent chemical resistance properties with high scratch and abrasion resistance. Interior Coating meets DB AG (Deutsche Bahn AG) requirements for permanent graffiti protection, which makes it the natural choice to protect e.g. interior surfaces of trains, metros, trams and buses. Marker, spray and ink paint can be easily and simply removed repeatedly without affecting the surface.

Shine Dressing

Water based shine agent to restore gloss to plastic & rubber surfaces. Refresh plastic moldings and tires.

Textile Protection

Textile Protection is a breathable, Ready-To-Use coating that forms a long lasting, durable, hygienic barrier on textiles and fabrics. The treated surface becomes dirt and stain resistant and allows for easy removal of soils and staining such as coffee and red wine while extending the life of the surface without affecting fabric texture. The treated surface needs only to be cleaned with a cloth and warm water.

Experts in cleaning agents for the professional market

We have one of the market's widest product ranges – and with many years of experience in both development, production and sales of effective cleaning products – which we sell to the European market. The head office is in Sweden, with sales offices in Denmark and Norway as well as an extensive network of dealers.

Philosophy

Blue & Green aims to deliver products of the highest quality at the right price - with the least possible environmental impact. We have a great focus on the environmental impact when we develop and produce our product range. It is important to us that our products are efficient in our customers application with the least environmental impact.

That is why we have several different environmental labels on a large part of our products and that we are ISO certified. At the same time we are connected to the Swedish circular packaging system, as we think it is crucial to recycle our packaging so that our products impact to the environment has as little impact as possible.
